RUSIA Defence Update

A weekly e-newsletter relating to our security & defence

A Re-badged Newsletter

This is the first issue of *RUSIA's* weekly e-newsletter. Its predecessor (the RUSIV Defence Update) has existed for over four years. It was distributed as widely as RUSIs in Canada. The editorship is planned to remain with RUSI Victoria. Distribution outside Victoria is by state RUSIs.

The Update aims to keep you well informed on defence and security issues, particularly those relevant to Australia and New Zealand and our regions. Like all news, some items are of lasting interest while many become quickly outdated. It's also perhaps surprising that we can find out much on Australian defence issues from overseas sources.

We would welcome your feedback - how well does the Update achieve its aim - to the Secretary of RUSIV. The best three responses will win a military history book from our collection of duplicates.

You may find this letter about US Military Libraries Week is of interest - [LibrariesWeek](#) - it may be fair to say that military libraries seem far less important to the Australian Department of Defence.
